SPONSORSHIP & PARTNERSHIP

ABOUT Blockchain Brussels

[Blockchain Brussels](https://www.meetup.com/Blockchain-Brussels) (<https://www.meetup.com/Blockchain-Brussels>) is **Belgium's first and biggest community** of blockchain and crypto believers. It is also one of the oldest European meetup around Bitcoin, cryptocurrencies and blockchain-based applications. **Created in 2013**, we organise events, conferences, gatherings and workshops for crypto users and blockchain experts on a regular basis.

“Building a blockchain community from the ground up in Belgium”

We're providing an inclusive forum for software developers of all levels, Crypto Enthusiasts and general public interested in Bitcoin to improve their understanding of distributed ledger technology and its social impact.

OUR MISSION

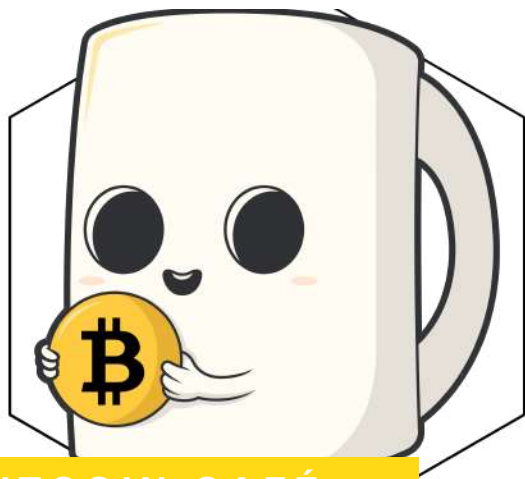

The aim is to bring together people that are interested in cryptocurrencies in the widest possible sense; to promote discussions among people from different fields of expertise, having different backgrounds and therefore different perspectives.

The goal is to find common interests to be explored further, practically creating any kind of experimentation, vulgarization, or business opportunities. We target any kind of audience, whether you have strong expertise to share, you are totally new and curious, or even just want to pass by to have a beer and say hello!

We're looking for sponsors to join us in growing our blockchain community and build long term partnerships.
